Stitch File Format

*PAD1	PAD2	P1offsetX	P1offsetY	P2offsetX	P2offsetY
11	10S	0.000	0.000	0.000	0.000
7	6S	0.000	0.000	0.000	0.000

PAD1 is the first pad of the stitch.
PAD2 is the second pad of the stitch
P1offsetX is the X offset applied to the PAD1 wire attach point.
P1offsetY is the Y offset applied to the PAD1 wire attach point.
P2offsetX is the X offset applied to the PAD2 wire attach point.
P2offsetY is the Y offset applied to the PAD2 wire attach point.

Note: If only PAD1 and PAD2 are specified than all the offsets are set to 0.
